What features can you spot?

When should I take my child to the dentist?

It is recommended that children should go to the dentist as soon their first teeth come through.

Remember:

- Keep sugary foods and drinks to mealtimes only.
- In-between meals choose healthy snacks and drinks.
- Make sure your children brush their teeth properly – twice a day under an adult supervision.
- Only use a pea sized amount of tooth paste.
- There is no need to rinse, just spit out when you have finished brushing.
- Family fluoride toothpaste strengthens teeth.
- Take your children for regular check-ups at the dentist.

Healthy Teeth for children
